

PARENT WORKSHOPS

Bringing teachers, parents and pupils together improves academic and social success for children. Our workshops cover a variety of topics of interest to all parents and take place within the familiar environment of the school community.

With the skills and strategies learned during the workshop, parents can better help children grow in confidence and resilience. We show parents how to get children to study at home, to communicate more and to try new things academically and socially. Parents learn how to support children in their academic pursuits without placing undue pressure on the children.

Workshops are 60 minutes with a group size between 10 and 30. Workshops take place after school hours at Saltley Academy. Both mums and dads have been in touch with us and we enjoy hearing about the many successes they are having at home following their attendance at one of our workshops.

We are delighted to announce that we will be running a Year 10 Parent Workshop on Wednesday 27th March 2019. The workshop will provide parents and pupils with useful strategies, techniques and tips to help Year 10 students prepare effectively for their two GCSE English Literature examinations they will all be sitting this year in May 2019.
